City Engineer Confirmed By McHenry County Stormwater Commission

City Engineer, Al Wilson, was elected "Secretary" of the McHenry County Stormwater Commission at their March 23, 2017 meeting. The Commission is scheduled to meet every other month to discuss issues related to the following:

- Develop a stormwater management plan for the management of stormwater, including the management of natural and man-made drainageways, for presentation to and approval by the County Board, and to direct the plans implementation and revision.
- Coordinate the planning process with each adjoining county to ensure that recommended stormwater projects will have no significant impact on the levels of flows of stormwater in inter-country watersheds or on the capacity of existing and planned stormwater retention facilities.
- Review and comment on proposed amendments to the adopted stormwater management plan prior to recommending the plan to the County Board.
- Develop plans to mitigate the effects of urbanization on stormwater drainage.
- Make periodic reports to the County Board and the McHenry County Council of Governments.

Mr. Wilson was confirmed by the Commission and the County Board in May 2016 to serve as a Primary Municipal Representative for the City of Woodstock, succeeding Mayor Brian Sager. The Mayor had served on the Commission since its inception in September 2006.

It Is Important To Act Immediately If You Suspect You Are Having A Sewer Backup...

A sewer backup is one of the more frustrating experiences for any property owner. The best thing a resident can do is educate themselves and learn the immediate steps to take if a sewer backup does occur in their home.

What Causes Sewer Backups?

There are many different reasons why a sewer might backup into a home, including:

- City or private sewer service gets plugged and obstructs the flow of water.
- An abundance of heavy rain and/or melting snow overloads the system.
- Tree roots infiltrating the City's main or a home's private sewer service, partially block the flow of water.
- A break or collapse occurs in the sewer line.

Who Is Responsible?

If the issue causing the sewer backup is within this section of a home's private service, it is the property owner's responsibility to rectify the situation. As depicted in the drawing at the right, a property owner's responsibility begins at and includes the connection to the City's sewer main.

If the problem is in the City's sewer main, City personnel will assess the situation and if necessary, do whatever is needed to rectify the problem as quickly as possible.

My Sewer Is Backing Up...What Do I Do?

**IMMEDIATELY CONTACT THE DEPARTMENT OF PUBLIC WORKS
AT (815) 338-6118.**

Office hours are Monday through Friday from 8:30 am to 5:00 pm.

**OUTSIDE OF OFFICE HOURS, CONTACT THE POLICE DEPARTMENT USING THEIR
NON-EMERGENCY NUMBER, (815) 338-2131.**

Dispatch will contact a Public Works employee to come and assess the situation. If it is determined the backup is caused by an issue within the private portion of the service line, the property owner may choose to call a plumber at this time; *however by calling the City first, a property owner may be able to avoid the cost of a plumber.*

Based on the seminal 1980 hit movie, and set in the late 1970's, this hilarious story of friendship and revenge in the Rolodex era is outrageous, thought-provoking, and even a little romantic. Pushed to the boiling point, three female co-workers concoct a plan to get even with the sexist, egotistical, lying, hypocritical bigot they call their boss. In a hilarious turn of events, Violet, Judy and Doralee live out their wildest fantasy - giving their boss the boot! While Hart remains "otherwise engaged," the women give their workplace a dream makeover, taking control of the company that had always kept them down. Presented by Woodstock Musical Theatre Company

"Queen Victoria's Secrets"

When we think of Queen Victoria, we rarely think of her laughing or loving, and we never think of her as amused. But her journals, letters, and photographs reveal a beguiling and passionate woman, especially when it came to men. This lighthearted look at the three men who ruled her heart — her mentor Lord Melbourne; the love of her life, Prince Albert; and her Highland manservant, John Brown — reveals that even Queen Victoria had some sexy secrets.

Debra N. Mancoff writes about the connections between art, fashion, and culture. Author of more than twenty books, she holds a doctorate in art history from Northwestern University and is a Scholar-in-Residence at the Newberry Library.
